

## Citrix Logins - MSCD640 Spring 8 Week 1

# MSCD640 Course Logins

Name	Citrix Username	Citrix Pwd	Oracle Username	Grid Control Username	Oracle and Grid Control Pwd	Host St
Mohamed Elbasheer	spring40111	regis8w1	sys	remote40111	oracle	remote40111
Douglas Forman	spring40112	regis8w1	sys	remote40112	oracle	remote40112
Miles Gavaghan	spring40113	regis8w1	sys	remote40113	oracle	remote40113
Mark Heaney	spring40114	regis8w1	sys	remote40114	oracle	remote40114
Chad Heidema	spring40115	regis8w1	sys	remote40115	oracle	remote40115
Bryan Mack	spring40116	regis8w1	sys	remote40116	oracle	remote40116
Peter Maloof	spring40117	regis8w1	sys	remote40117	oracle	remote40117
Anita Overgaard	spring40118	regis8w1	sys	remote40118	oracle	remote40118
Luis Pacheco	spring40119	regis8w1	sys	remote40119	oracle	remote40119
JoRei Schnaible	spring40120	regis8w1	sys	remote40120	oracle	remote40120
Ross Spelman	spring40121	regis8w1	sys	remote40121	oracle	remote40121
	spring40122	regis8w1	sys	remote40122	oracle	remote40122

To map to the network drive, go to the command prompt (in the Oracle desktop), and type in:  
 c:\winnt\system32> net use h: \\ora01\mscd640

**Change the "XX" to the number for your instance!**

Login example from SQLPLUS command line:  
 connect sys/[oracle@remote401XX.world](#) as sysdba

Login example from SQLPLUS GUI:  
 User Name: sys  
 Password: oracle  
 Host String: remote401XX.world as sysdba

To startup your instance using the SPFILE: startup  
 To startup your instance using the PFILE: startup pfile = h:\dbms\app\admin\DA1XX\pfile\initda1XX.c

**Remember to SHUTDOWN IMMEDIATE when you are done! (shutdown immediate)**
